<p data-bbox="50 443 238 487">General Commitment Level</p>	<p data-bbox="260 148 534 671"><i>Moderate Commitment</i> - being on time to practice/games and overall attendance is expected more often than not to truly learn how to compete and grow in the sport. However, please consider this level if you are new to the sport, like to compete on a team but ONLY play for fun, you're involved in a variety of School activities, organizations and other sports that may cause you to consistently be late, miss practice/games/tournaments more often than not. Playing time will generally be spread out evenly amongst this group. This group Season ends around March or April.</p>	<p data-bbox="547 148 784 593"><i>High Commitment</i> - being on time to practice/games and overall attendance is expected at most practices and tournaments - we may work with school commitments if prior notice is given. Your teams will play in more tournaments so your teammates and coaches are depending on you to grow individually and as a team. Playing time is based on attendance/performance in practice. This group season ends around May.</p>	<p data-bbox="797 148 1243 749"><i>Highest Commitment</i> - being on time and attending all practices/mandatory workouts/games/tournaments is expected - we may work with school commitments if prior notice is given. Athletes at this level understand the rules and have mastered the basics/fundamentals of volleyball and are ok being coached at a higher level. These athletes want to be recruited to play in college at some point during their career, are expected to do EXTRA QUALITY WORK on their own, outside of normal practice/workout times without being told to do so, compete at the highest level of competition in practice/mandatory workouts/games/tournaments and will compete to win tournaments and bids at USAV and/or AAU Tournaments. Your teammates and coaches are depending on you to grow individually and collectively as a team. Playing time will be based on Attendance/Performance in practice and various strategies that will help put your athlete and team in the best position to win while still growing as a volleyball player overall. This group season could run through June-July.</p>
